

1 faculty members to be involved in small group discussions
2 and preceptorials. The commitment of these Clinical
3 Faculty who tirelessly and competently serve without
4 monetary rewards, is, indeed, admirable and has been vital in
5 maintaining the required teaching and research expertise
6 complement of the College and the Hospital. As they
7 continue to be one of the University's important resources, it is
8 but fitting that they be granted justifiable privilege.
9

10 It is proposed that the dependents of the Clinical
11 Faculty be granted Study Privileges in the University.
12

13 **Board action: Approval**

14
15 **C. Proposal to Amend the Policy Prohibiting the Use of U.P.'s**
16 **name by groups/organizations/centers conducting review**
17 **classes for entrance/qualifying exams such as the UPCAT, LAE,**
18 **NMAT and the Use of U.P. facilities for this purpose**
19

20 There is a proliferation of groups/organizations/review
21 classes for entrance/qualifying exams ADMINISTERED BY U.P.
22 such as the UPCAT and the LAE [and the NMAT]. Their
23 advertisements tend to mislead the public who gets the
24 impression that these review classes are sponsored by the
25 University.
26

27 More appalling is when these review classes are
28 conducted by U.P. faculty and staff using the facilities of the
29 University. These not only mislead the public, but also gives
30 false hopes to examinees who might think that they will pass
31 the entrance/qualifying exams because they paid for a U.P.
32 sponsored review class.
33

34 Justification
35

36 The prohibition shall apply only to review classes for
37 entrance/qualifying exams administered by the University.
